

- 1) Report directly to your group at the pistol or rifle range for Safety Brief.
- 2) Each group will have two RSO's with their own never shared timers.
- 3) Each group will have two score keepers with their own never shared clipboard/score sheets.
- 4) The balance of shooters will be given a numbered/colored box of pasters/ can of paint for their exclusive use during the match. They will be disinfected with spray after each match. Shooting is optional, pasting/resetting is still mandatory. Please keep track of your item.
- 5) Timers, pasters and clip boards will be sanitized before each match by the Match Director.
- 6) Target equipment will be sanitized with spray after stages are set up and when stored.
- 7) Shooters will have correct change, still \$5, \$1 for HNT.
- 8) No equipment sharing unless you live under the same roof.
- 9) Shooters will bring and use work gloves to prevent hand or skin injuries during set up/tear down. Surgical Gloves will not be sufficient. I suggest leaving them on the hood of your car in the sun during the match for whatever disinfecting the sun may do.
- 10) **Shooters with any kind of cold symptoms must cancel.**
- 11) Shooters will supply their own hand sanitizer or wipes and be responsible for using them.
- 12) Don't touch your face.
- 13) Keep your distance. I know around here 6 feet is hard to maintain but 10-12 feet is ok if that's where you are more comfortable. As always, **RSO's Will Physically intervene if necessary** for firearm safety i.e. muzzle faults. If this presents an unacceptable risk for you then you must not participate.
- 14) **ALL SHOOTERS ARE PERSONALLY RESPONSIBLE FOR THEIR OWN COVID RISK MANAGEMENT AND THEIR OWN CHOICES FOR MITIGATION.**  
If you feel you need a mask or surgical gloves or any other thing you go right ahead and do them as long as they do not create a firearms safety risk.  
If your perception of risk is higher for Covid-19 than risk from a firearm accident during this activity you must not participate.
- 15) Range Safety Officers will **PRIORITIZE FIREARM SAFETY**, not virus safety. If you disagree with this policy Action Pistol is not for you. **EVERYONE IS A SAFETY OFFICER!**

I have read and understand the statements above. \_\_\_\_\_ date: \_\_\_\_\_
