

2023 Sight In Days Summary

Over 700 guns were sighted-in during the two-week duration, and hundreds of hours were put in by volunteers. 700 is less than some previous years – beginning with Covid and then the ammunition shortage, our numbers have been down from the normal of 1,000 guns sighted by hunters. We send out books of raffle tickets in late summer, and those tickets are sold until the close of Sight In Days. In 2023 IGC made about \$10,000 on raffle ticket sales. The raffle and Sight In are our most important fundraisers each year.

We also sell fired brass sorted by caliber. Reloaders buy some of this brass, and then the remaining brass is sold to a bulk recycler. This year we earned over \$800 on brass.

The winners of the raffle prizes are:

Mossberg bolt action rifle in .243: David Hagen

Ruger Talo 10/22 semi-auto rifle in .22: John Hachy

Taurus semi-auto pistol in 9mm: Rose Shorma

Bushnell Power View H₂O 10x42 binoculars: Larry Kasper

Smith & Wesson Damascus fixed blade hunting knife: Andy Bibeau
