

Brief Description of each position

Shooting Line

- Stand out by the covered shooting line and assist shooters in spotting their shots. Rotate into the office if it's really cold

Office/Inside

- Sit in the heated office, sell raffle and sight in tickets. More than one person is great.

Firearm Check In

- Greet each new shooter, check all firearms – unloaded, unobstructed bore, correct ammo, action functions normally.

All these tasks can be shared around if needed with the people on site. If you're sitting around at home, consider driving out to the range and seeing if extra help is needed, especially on weekends or as hunting opener nears.
